Video Documentary - Live Challenge: Who Am I?

Scenario:

In this event your team of 2 or 4 students will produce a video about an individual of importance in Technology. The team will be given a name and be required to research and emphasize 3-5 key points about this individual. Using the video software of their choice, teams will collaborate to produce a video and plan their presentation.

The film should answer a few key questions:

1. Introduce your person of importance and provide some interesting Bio facts.
2. What contributions has this person made to technology?
3. How has this person impacted the way we think as students?
4. How has this individual impacted society?

Challenge:

- Using Adobe Premiere Pro CC or We Video, teams will collaborate to produce a video and plan their presentation.
- Video must emphasize and elaborate on key points provided.
- Video must have an Intro slide including the person's name and picture
- Students can add video (student-created from computer cam) and/or pictures (or a combination of both) to be used in the project scenes.
- Include audio files provided (optional)
- Include voiceovers using headsets (optional)
- Video MUST be a maximum of 2 minutes.

Time:

Your team will have:

- 20 minutes to research the individual.
- 20 minutes to create the video and export to MP4 (exporting optional-students may present from application).
- 3 minutes to present your video to the judges.

Presenting to Judges:

- Teams will take turns presenting their videos to the judges as an exported MP4 or right from the application they used to create the video.

Scoring:

You will receive up to:

5pts	Timing – meets the time limit of 2 mins or less
5pts	Team collaboration during the planning stage.
5pts	Incorporation of all team members into the presentation.
5pts	Creativity of the presentation.
5pts	Video content emphasizes the person's bio, contributions, and value to Technology.
5pts	Video contains the Intro slide, flow is well managed with use of audio, images, voiceovers

Tips:

As with most of the live challenges, teams will need to be very careful with time management. They should allocate at least a few minutes to review their video and prepare for the presentation to the judges.

- *This year, students can only use* Adobe Premiere Pro CC or WeVideo.

- IT will provide laptops as they always have containing Adobe Premiere Pro CC (2017) and of course students will also have access to use online video editors such as WeVideo.
  - Students that use We Video will need to know how to access the website and log in to We Video.

- Students will have the choice to use either of the above editing applications

- Students may show their video without exporting the file to MP4 if they prefer. Note: If using WeVideo lower quality footage is used until it is exported and can cause the video to skip so for best results we advise students to process their video for judge viewing.

Day of:

- Each Team will have an Event flash drive for each Video event they are participating, and each flash drive will contain the files necessary to complete the event. (For example: Team A is competing in the BB, Doc, and PSA, so there will be three flash drives for Team A, one for each event.)

- Flash drives will be placed in the rooms the students are assigned, thus, the importance of students having the most current schedule.

- **Students that leave without returning the flash drive will not receive points for the event.**

- **Student must stay outside the room, and if they leave the area before they present to judges, they will not receive points for the event.**

Getting Help:

Visit the Documentary Documents Page to see a sample Design Document, Event support files, and sample Live Challenges to help prepare and practice.

 Contact Jonathan Graney at Jonathan.Graney@fresnounified.org or Robert Delarosa at Robert.Delarosa@fresnounified.org if you have any further questions about this event.

Live Challenge Scoring Rubric – Documentary

Team Name: _____

Category	Exemplary	Proficient	Partially Proficient	Incomplete	Points
TIME LIMITS	**5 points**	**4 points**	**2 points**	**0 point**	
The Documentary meets the time limit requirement of 2 minutes or less.	The Documentary is 2 minutes or less.	The Documentary is + 0.5 minutes.	The Documentary is + 1 minutes.	The Documentary is + 2 or more minutes.	
COLLABORATION	**5 points**	**4 points**	**2 points**	**0 point**	
Team collaboration during the planning stage.	The team was highly collaborative throughout the process.	The team was mostly collaborative.	The team was somewhat collaborative.	The team had little to no collaboration.	
PARTICIPATION	**5 points**	**4 points**	**2 points**	**0 points**	
Incorporation & participation of all team members into the presentation.	All members of the team participated significantly in the presentation.	One member dominated slightly in the presentation and others were less significant.	One member dominated and the others were very less significant.	One member said everything, and the others did nothing.	
CREATIVITY	**5 points**	**4 points**	**2 points**	**0 points**	
Creativity of the presentation.	The presentation was very creative.	The presentation was typical in its creativity.	The presentation was lacking in its creativity.	No real creativity in presentation.	
CONTENT	**5 points**	**4 points**	**2 points**	**0 points**	
Video emphasizes the person's bio, contributions, and value to Technology.	Team presents clear and engaging presentation covering their bio, contributions and value to Technology.	Lacks engagement and emphasizes only one-two areas their bio, contributions and value to Technology.	Lacks engagement, focus, and emphasizes only one area of their bio, contributions and value to Technology.	Lacks engagement, focus and does not emphasize any area of their bio, contributions and value to Technology.	
TECHNICAL	**5 points**	**4 points**	**2 points**	**0 points**	
Effective Editing: Video Contains: *Intro Slide/Title *Audio/Music *Images/Video *Voiceovers *Transitions *Flow is well managed	Incorporates all requirements into presentation with consistency and flow.	Incorporates all requirements with some inconsistency and minimal flow.	Incorporates almost no requirements and lacks consistency or flow.	Does not incorporate any of the requirements and has no consistency or flow.
