

## - Mobirise for Teacher and Student Website Editing and Publishing -

With the Mobirise desktop app, teachers can create, edit and publish their own website for use with students, parents and the community. This tool is a replacement for Weebly and other free website editors.

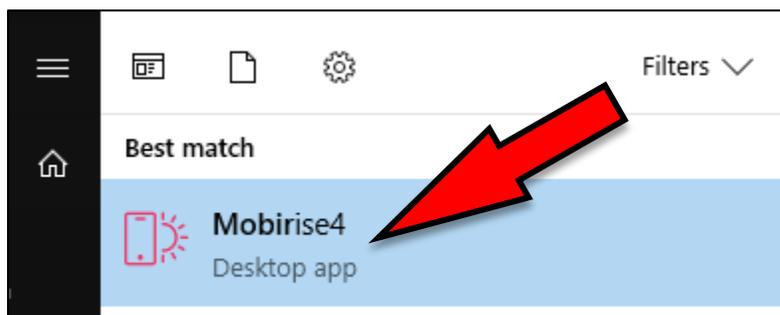

**Step 1:** Download the application at [mobirise.com](https://mobirise.com) or install it from the Software Center app on your district computer.

**Step 2:** Run the **installer** to get Mobirise intalled on your desktop

**Step 3:** Launch the **Mobirise app**

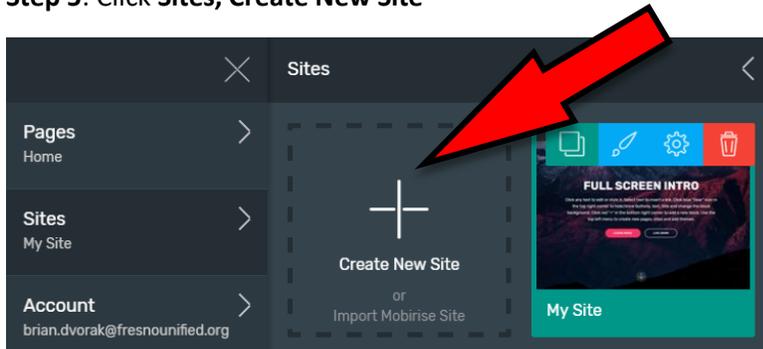

**Note:** On first launch you will need to sign up for an account. Feel free to use your district email address when creating an account.

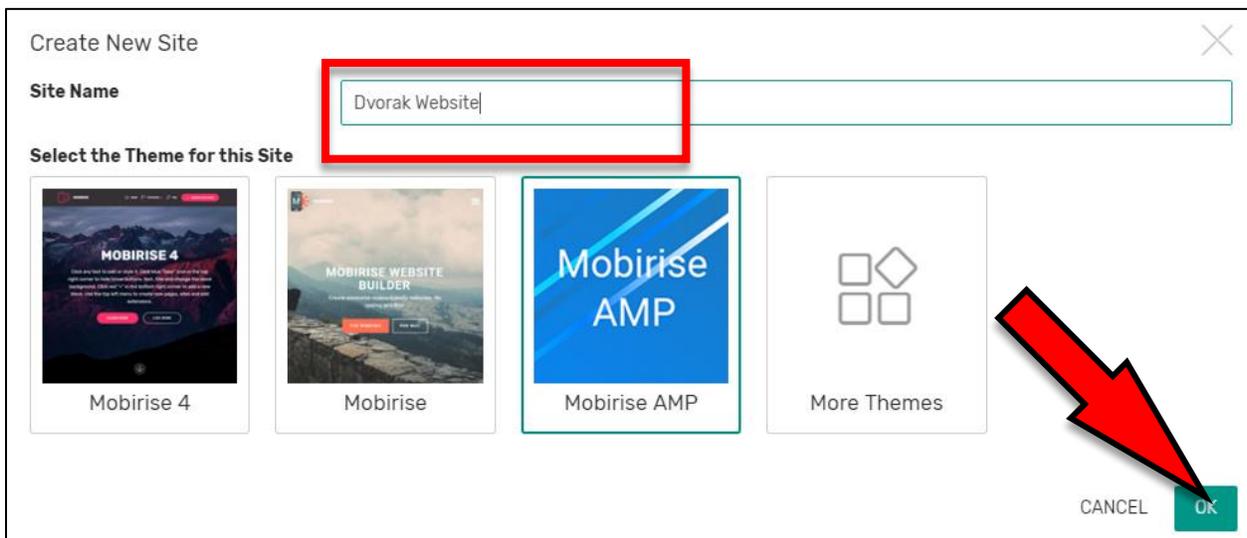

**Step 4:** Click the **menu icon** in the top left corner

**Step 5:** Click **Sites, Create New Site**

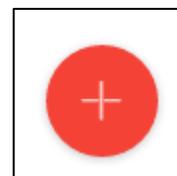

**Step 6:** Name your site in the **Site Name** field

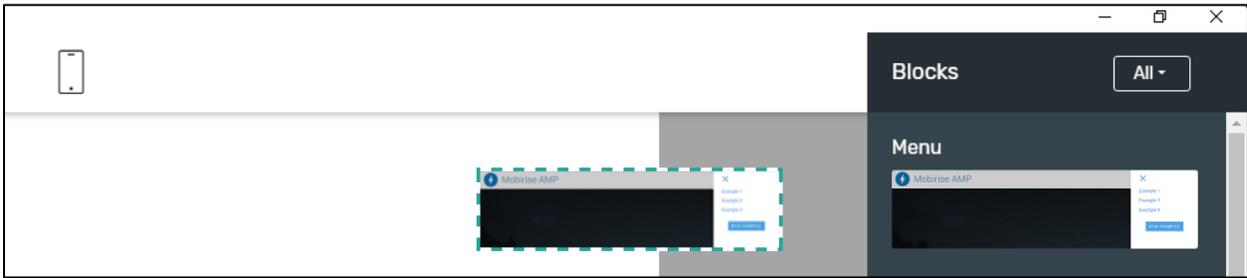

**Step 7:** Choose a theme (click Mobirise3 or Mobirise AMP to start with a blank site), then click **OK**

**Disclaimer:** (You can use Mobirise 4 but it has been known to have issues when opened in Internet Explorer. AMP does not have as many features as Mobirise 3)

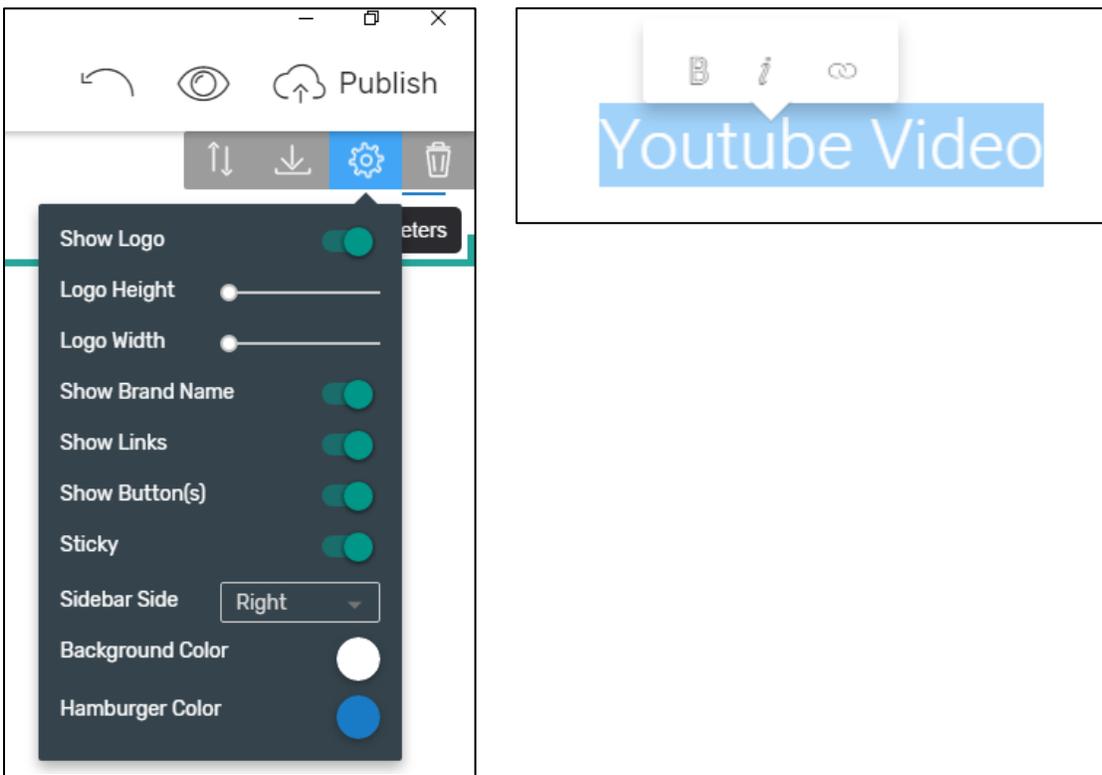

**Step 8:** Click the red **“+”** icon to begin adding **blocks** to your page

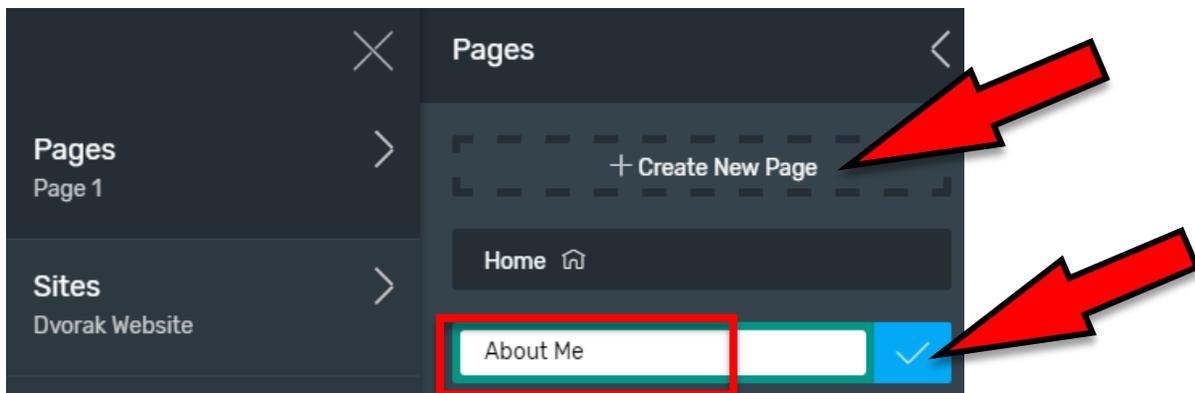

**Step 9:** Drag and drop **blocks** onto the page including menu bar, header, footer, etc.

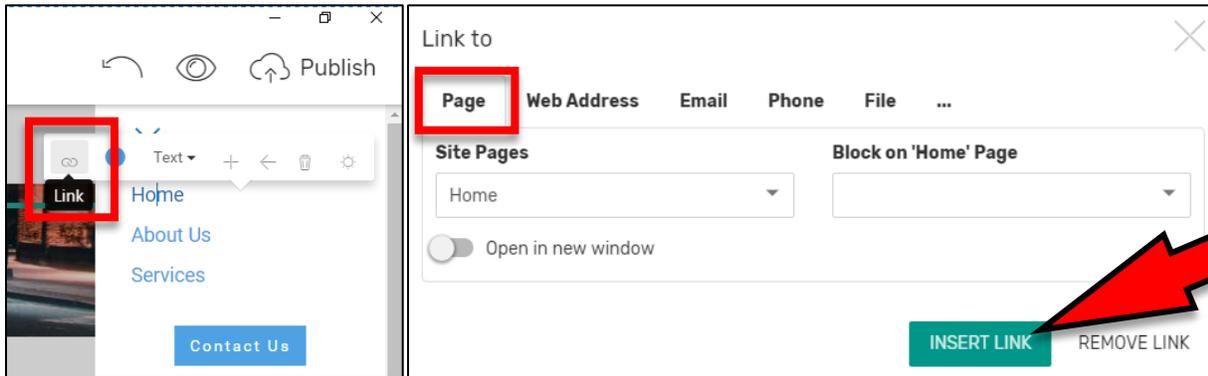

**Step 10:** Edit a block by clicking on it. You can **double click on text to edit**. Click the **gear for settings** and customization.

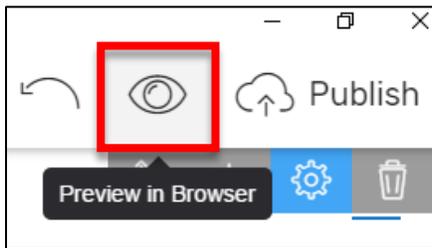

**Step 11:** Create a **new page** by clicking the **menu icon, Pages**, then **Create New Page**. Type in a **page title** and click the **blue check mark**.

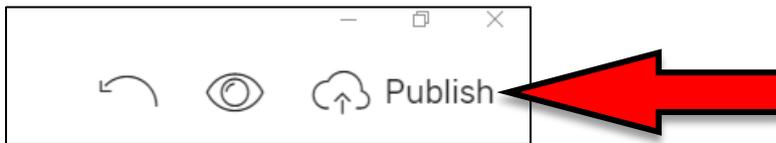

**Step 12:** Edit your navigation menu by clicking the **menu icon** at the top right. Then click a **page title** and click the **link icon**. You can then link to a site page as shown below. Click **Insert Link**.

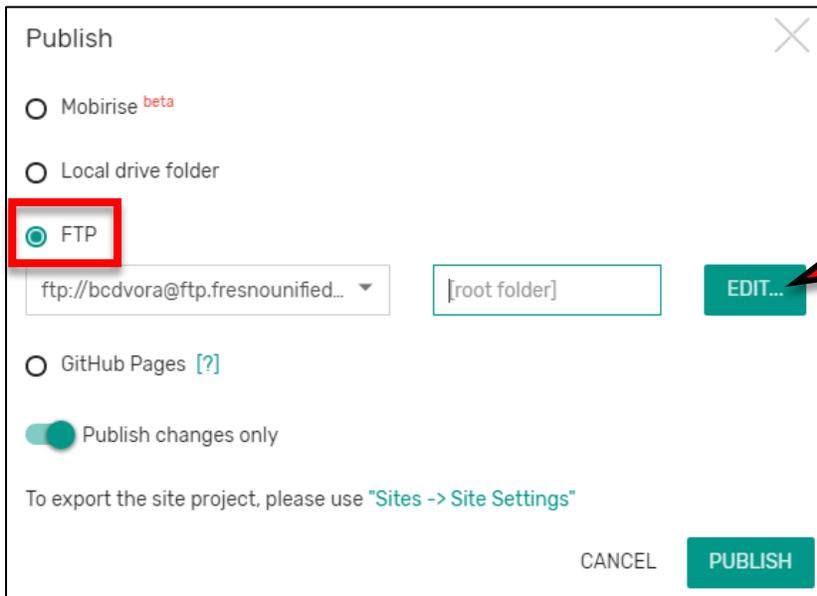

**Step 13:** To Preview your site, click the **eye icon** at the top right.

**Step 14:** To publish your site, click **Publish** in the top right corner

**Step 15:** Select **FTP** then click **Edit**

**Step 16:** In the **Host** field, type **ftp.fresnounifiedsites.org**, then enter your **username and password**. Click **Save**. For student sites use **ftp.fresnousites.org**.

FTP Site Manager

ftp://bcdvora@ftp.fresnounifiedsites.org:21

ADD NEW REMOVE

Protocol: FTP

Host (e.g. ftp.domain.com): ftp.fresnounifiedsites.org

Port: 21

Username: bcdvora

Password: .....

TEST CONNECTION SAVE

**Step 17:** In the root folder field, type your **employee ID number** (exclude the leading zeros). Then click **Publish**. For student sites use the **student ID number (six digits)**.
